VP of Engineering | Rocket Financial Inc

I had the pleasure of working with him and I can confidently say that he is an outstanding soft. engineer. His ability to tackle complex problems with efficient solutions is truly impressive. Notably, he played a crucial role in developing a few key features for Rocket Financial. Fernando's dedication and teamwork made our collaboration enjoyable. I highly recommend him for any challenging technical role.

Connie Mason

HR Manager | Rocket Financial Inc

I highly recommend Fernando for any future opportunities and am confident that he will be a valuable asset to any team. Along with being a great person who is easy to talk to, Fernando has great knowledge. Consistently demonstrated a high level of technical expertise, problem solving skills and a strong commitment to delivering quality work.

Trevor Chawana

Produc Owner | Rocket Financial Inc

He is a model professional - he got up to speed with the new environment very quickly and was delivering value from Day 1. In a short time, he was asked to take a lead as the D.O for Wire payments and he did an excellent job. He also took the lead in formulating and reviewing a number of architectural designs for the platform we were building. I really enjoyed working with him, as he is approachable and really good at simplifying technical concepts when communicating with people in the business.

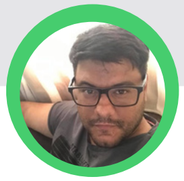
Team Recommendations

Lucas Moura

Frontend Developer (React)

Without a doubt, he was the best technical leader I've ever met. He has a lot of technical knowledge (code, architecture, etc.) and soft skills. Thank you Fernando, it was great working with you, you can be sure that you are one of my inspirations as a leader.



Deyvid Henrique Pereira

Senior Wordpress Developer

Great leader. Throughout the project he always helped me to develop technically. In times of difficulties, he always had a clinical approach to solve issues in the best way possible. I would love to work together again in the future.

Lubio Maxuel Ramos

Senior Software Developer | Rocket Financial

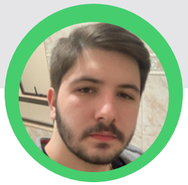
Very skilled and responsible. Under his leadership, the team has always achieved very ambitious technical challenges requested by the company. Always acting proactively to help the team and ensure the project is heading to the proper direction.
An easy person to work with, receptive to feedback and assertive on the feedback given to others.

Thayanne Rodriges

Business Analysis | Product Owner | aiqfome

Dedicated, determined and humane, always willing to help and solve problems effectively. Transparent in everything he does, he was very concerned with the dissemination of knowledge so that together we could add more and more. Committed to acquiring knowledge and applying it. A professional who will add wherever he is.

Team Recommendations



Gabriel Cilico Leite
Software Enginner at Favo

Certainly one of the best technical leaders I've ever had, his demands, tips and follow-ups were extremely important for my professional evolution.
One of the professionals I look up to. It was great working with him, and I hope we have the opportunity to work together again in the future.

Willyan Klumb
Full Stack Developer

Good manager, always attentive to the details and problems that occur in the project and tries to solve them in the best way. As a developer you have an excellent vision of the end result and how to achieve it. He seeks to keep the code clean, well organized and documented and in the analysis of requirements it has a great ability to abstract and describe them.

Antonio de Santes
Software Engineer | Python | Go | Java

He has in-depth knowledge and good programming logic. As a project manager, always attentive to the team and the client. Knows how to distribute activities and value the potential of each team member. As much as something seemed unnecessary or pointless, he always liked to ponder things and think outside the box. An excellent professional.

Managers Recommendations
